Partnering for Impact

We are proud to announce that David and Jackie Siegel signed a memorandum of agreement with the DEA on February 22 to renew and reaffirm our long-standing partnership. Participants included DEA Administrator Anne Milgram, DEA Associate Administrator Jon DeLena, and Chief of Community Outreach and Prevention Support Sean Fearn.

David and Jackie were honored to tour the DEA Museum, currently located in Arlington, Virginia, with their children David Jr. and Daniel. It was an emotional yet rewarding opportunity to place Victoria's photo on the wall of the museum's special *Faces of Fentanyl* exhibit, which commemorates the lives lost to fentanyl poisoning.

The DEA Museum is open to the public Tuesday through Saturday, 10 a.m. to 4

p.m. For more information, please visit www.museum.dea.gov.

It Takes a Village

We are thrilled to partner with SkywardRx, a digital healthcare consulting company, to accelerate the distribution of our drug prevention education and naloxone awareness program through SkywardRx's robust distribution channels, including AbundaBox™ HealthPack and direct-to-consumer initiatives. Customized AbundaBox™ HealthPacks deliver healthy food options and crucial connectivity resources directly to families when needed the most. Through this partnership, our drug prevention education and access to naloxone will be seamlessly integrated into AbundaBox™ HealthPack, enhancing its ability to combat the opioid crisis and address a broader range of community health needs.

Hire Knowledge

For emergency use.

AED

In case of
cardiac arrest.

Naloxone

For a known or
suspected opioid
overdose.

Naloxone in the workplace?

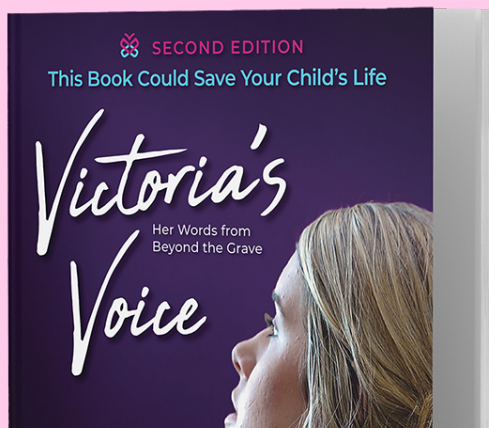

Even though heart disease isn't a common workplace hazard, AEDs are typically installed for employee safety. Since opioid overdoses can occur just as unexpectedly – and be just as deadly – as cardiac arrest, employers should assess the risk of on-site employee overdose based on factors like the nature of work, employee demographics, and visitor frequency.

This safety consideration is especially relevant given the extent of the opioid crisis in the United States today. Now is the time for employers to seriously consider including [naloxone](#), a relatively inexpensive opioid overdose reversal medication, in workplace first-aid kits to support the overall well-being and safety of their employees.

Victoria's Voice urges all employers to equip their workplace with [naloxone](#) and to train staff on its proper administration. Access our [Get. Give. Save.](#) movement to empower your team to respond effectively in an opioid overdose emergency.

For more information, contact Corporate Partnerships Director Mark Cady-Archilla at mark@victoriasvoicefoundation.com or 407-355-2301.

Victoria's Voice

We are excited to announce that the second edition of [Victoria's Voice](#) is now available on audiobook. *Victoria's Voice* is a gripping peek inside the mind of a sometimes happy and healthy teen and at other times a teen dramatically influenced by drugs and alcohol. The book includes introductions by Victoria's parents, Victoria's handwritten diary featuring her own artwork, and valuable resources for parents and teen.

You can download your copy for FREE with an Audible subscription on Amazon. [Click here](#) to listen to a sample and to get your audiobook.

Driving Awareness

A big thank you to Westgate Resorts for inviting us to the pre-race NASCAR event at the Westgate Las Vegas Resort and Casino. We were delighted to be accompanied by our local Beauty for Good Ambassadors Gina Merren (Mrs. Mountain's Edge) and Ellen Wynn (Mrs. Southwest), who volunteered their time to share Victoria's powerful legacy and our **Get. Give. Save.** campaign with those in attendance.
